

**Erasmus KA2, the final event of the Cyberbullying project in the
Municipality of Vasto
Organized by the Nuova Direzione Didattica of Vasto**

In the Council Chamber the final event of the Erasmus KA2 project "CONSCIOUS Technology for the Future" of the Peluzzo and Ritucci Chinni Schools of the Nuova Direzione Didattica took place.

In the presence of the teachers and the Headmaster Concetta Delle Donne, together with the Mayor Francesco Menna and the Councilor for school and European policies, the City of Vasto told the project partners of its commitment in favor of non-hostile communication and activities that the teachers and the Municipality have set up to sensitize young people to the correct use of communication and web tools.

Certainly positive for the Erasmus project carried out by the Nuova Direzione Didattica of Vasto which ends after three years of work. The project was carried out in collaboration with the partner countries of Turkey (Lead School), Bulgaria, Poland, Romania. The teachers worked together on a common project, that of preventing addiction to technology and countering the phenomenon of cyberbullying.

Numerous activities were carried out aimed at supporting the effective and conscious use of technologies through the exchange of good practices.

Determinant and certainly full of new ideas was the day dedicated to the videoconference link between the Municipality of Vasto and partner countries on June 30th.

The councilor for school policies Anna Bosco stressed the importance of the "Unlock" initiative, a competition dedicated to all schools in the city and linked to the Manifesto of non-hostile communication for which the pupils created unpublished music

and videoclip A totally new proposal that has allowed the Nuova Direzione Didattica to obtain the best awards in the competition. The works, much appreciated by the European partners, will be sent to be then distributed across the border.

"The importance of a certain type of communication that brings the human being and the student back to an internalization of non-hostile language", underlined the Headmaster Concetta Delle Donne "becomes the objective of a new didactic path dedicated to good practices in starting from the Kindergarten, aimed at vertical training to be extended to future generations ".
